

ME017242 Air Filter, Cylindrical Synthetic Fiber Cartridge, In Stock Fast Shipping

Specifications :

Price	Contact Us
Place of Origin	China
Min.Order Quantity	10
Payment Terms	OEM?ODM?OBM
Supply Ability	1000
Delivery Detail	3-7

Detail Introduction :

The ME017242 is a direct replacement filter with a cylindrical synthetic fiber element. It provides 5?m filtration to help remove fine contaminants from air or hydraulic systems. The filter operates effectively between -40°C and 80°C and is rated for working pressures from 1.0MPa to 10MPa. Its 5m³/min flow rate supports efficient system operation. Because it is stocked and ready to ship, it helps reduce equipment downtime and keeps maintenance schedules on track.

Parameter	Specification
Product Name	Air Filter
Product Specification	ME017242 Filter
Filter Media	Synthetic Fiber
Filter Element Shape	Cylindrical
Filtration Accuracy	5 ?m
Working Pressure	1.0 MPa – 10 MPa
Working Temperature	-40°C – 80°C
Flow Rate	5 m³/min

Product Highlights

In stock and ready for fast shipping

Cylindrical synthetic fiber cartridge

5?m filtration accuracy

Working pressure: 1.0–10MPa

Easy to install and replace

Product Applications

This filter is suitable for a wide range of machinery, including construction equipment, mining vehicles, industrial power units, and agricultural machines. It is commonly used in hydraulic systems, air intake lines, and other filtration applications. Ideal for repair shops, fleet maintenance, and distributors who need quick access to replacement filters.

Why Choose Us

We know that downtime costs money. That is why we keep popular filters like the ME017242 in stock and offer fast shipping. Our filtration products are manufactured under strict quality control, ensuring consistent performance. With our global service mindset and technical expertise, we help customers get the right filter quickly and keep their operations running.
