

CA-1001 Cabin Air Filter with Activated Carbon, PP Frame, for Cars & Trucks

Specifications :

Price	Contact Us
Place of Origin	China
Min.Order Quantity	10
Payment Terms	OEM?ODM?OBM
Supply Ability	1000
Delivery Detail	3-7

Detail Introduction :

Model CA-1001 measures 240 × 200 × 30 mm and features activated carbon composite filter media. The PP eco-friendly frame gives the filter a stable shape, helping it maintain its structure during installation and use. At approximately 180 g, it is light enough for easy handling but strong enough for regular replacement cycles. The filter is intended for automotive AC systems and is suitable for passenger cars and commercial vehicles with matching dimensions. Its activated carbon layer is especially useful for reducing common odors and harmful gases that can enter the cabin from traffic, dust, and environmental pollution.

Parameter	Specification
Product Name	Cabin Air Filter
Product Model	CA-1001
Product Type	Automotive Cabin Air Filter
Product Dimensions	240 × 200 × 30 mm
Filter Media	Activated Carbon Composite Filter Media
Frame Material	Polypropylene (PP) Eco-friendly Material
Product Weight	Approx. 180 g
Filtration Function	Removes dust, pollen, PM2.5, odors, and harmful gases
Application	Passenger car and commercial vehicle air conditioning systems

Product Highlights

Activated carbon composite media for improved cabin air quality

PP eco-friendly frame for shape retention and durability

Fits compatible cars and trucks

Size: 240 × 200 × 30 mm

Lightweight design at approx. 180 g

Helps reduce dust, pollen, PM2.5, odors, and harmful gases

Designed for straightforward replacement in vehicle AC systems

Product Applications

This **cabin air filter** is suitable for family cars, pickup trucks, box trucks, service vehicles, work vans, and commercial fleets. It is a good choice for drivers who spend long hours on the road, operate in dusty environments, or want to maintain a more comfortable cabin. It can also be used by repair shops and maintenance centers as a replacement filter for compatible vehicle models.

Why Choose Us

We focus on building filtration products that meet real-world demands. Our engineering and technical team works to improve product performance and consistency, while our quality control process helps ensure each filter meets high standards. With experience across automotive, construction, mining, industrial power, and agricultural machinery sectors, Shandong Topkit provides dependable filtration solutions and responsive support for customers worldwide.
