Supply Ability	1000
Delivery Detail	3-7

Detail Introduction :

The CA-1001 is an automotive cabin air filter with a 240 × 200 × 30 mm size and an approximate weight of 180 g. It uses activated carbon composite filter media and a PP eco-friendly frame. The activated carbon helps address common odors and harmful gases, while the composite media works to capture airborne particles such as dust, pollen, and PM2.5. This replacement filter is designed for passenger cars and commercial vehicles that use the same dimensions. It is suitable for routine service, fleet maintenance, and repair shop use. By replacing the cabin air filter at appropriate intervals, drivers can help maintain airflow and improve cabin comfort.

Parameter	Specification
Product Name	Cabin Air Filter
Product Model	CA-1001
Product Type	Automotive Cabin Air Filter
Product Dimensions	240 × 200 × 30 mm
Filter Media	Activated Carbon Composite Filter Media
Frame Material	Polypropylene (PP) Eco-friendly Material
Product Weight	Approx. 180 g
Filtration Function	Removes dust, pollen, PM2.5, odors, and harmful gases
Application	Passenger car and commercial vehicle air conditioning systems

Product Highlights

Replacement cabin air filter for compatible vehicles

Activated carbon composite media

PP eco-friendly frame

Reduces dust, pollen, PM2.5, odors, and harmful gases

Dimensions: 240 × 200 × 30 mm

Weight: approx. 180 g

Suitable for passenger and commercial vehicle AC systems

Practical for routine maintenance and fleet service

Product Applications

This filter is suitable for passenger cars, commercial vans, trucks, taxis, ride-share vehicles, delivery vehicles, and fleet cars. It can be used by vehicle owners, auto repair shops, maintenance chains, and distributors who need a reliable cabin air filter replacement for compatible models. It is especially helpful for vehicles used in dusty, polluted, or high-traffic environments.

Why Choose Us

Shandong Topkit Construction Machinery Equipment Co., Ltd. is a high-tech manufacturer and supplier of filtration products. We serve automotive and transportation, construction machinery and mining equipment, industrial power equipment, and agricultural machinery equipment industries. Our engineers and technicians continuously work to improve product performance and meet changing market needs. With strict quality control and a customer-focused approach, we aim to provide dependable cabin air filters and filtration solutions for global customers.
