

Premium Cabin Air Filter CA-1001, PM2.5 & Odor Removal, 240x200x30mm

Specifications :

Price	Contact Us
Place of Origin	China
Min.Order Quantity	10
Payment Terms	OEM?ODM?OBM
Supply Ability	1000
Delivery Detail	3-7

Detail Introduction :

The CA-1001 combines activated carbon composite filter media with a PP eco-friendly frame. This design helps the filter capture dust, pollen, PM2.5, odors, and harmful gases that may enter through the vehicle's air conditioning system. The activated carbon layer is selected to help adsorb unpleasant smells, while the filter media supports particle reduction. Weighing approximately 180 g, the filter is lightweight yet structured for reliable installation. Its dimensions are 240 × 200 × 30 mm, making it compatible with specific vehicle AC systems. For drivers who care about cabin comfort, the CA-1001 offers a practical upgrade or replacement option.

Parameter	Specification
Product Name	Cabin Air Filter
Product Model	CA-1001
Product Type	Automotive Cabin Air Filter
Product Dimensions	240 × 200 × 30 mm
Filter Media	Activated Carbon Composite Filter Media
Frame Material	Polypropylene (PP) Eco-friendly Material
Product Weight	Approx. 180 g
Filtration Function	Removes dust, pollen, PM2.5, odors, and harmful gases
Application	Passenger car and commercial vehicle air conditioning systems

Product Highlights

Premium activated carbon composite filtration

Targets PM2.5, dust, pollen, odors, and harmful gases

PP eco-friendly frame for a stable, lightweight design

Exact size: 240 × 200 × 30 mm

Approx. 180 g for easy handling

Helps improve cabin air quality and driving comfort

Suitable for passenger cars and commercial vehicles with compatible dimensions

Product Applications

The CA-1001 is recommended for daily drivers, family vehicles, executive cars, taxis, ride-share vehicles, and commercial fleets. It is especially useful in urban areas, high-traffic zones, industrial surroundings, and regions with seasonal pollen or dust. Regular replacement helps maintain cleaner airflow and supports a more pleasant cabin environment for both drivers and passengers.

Why Choose Us

Shandong Topkit is committed to filtration quality and continuous improvement. As a high-tech enterprise, we combine engineering knowledge with strict production control to deliver filters that customers can rely on. Our team serves automotive, construction machinery, mining, industrial power, and agricultural equipment markets, and we understand the importance of consistent performance. Choosing the CA-1001 means choosing a filter backed by technical expertise, quality focus, and global service awareness.
